Section 1 Identification of the substance/mixture and of the company/undertaking

Product identifier:
Identification on the label/Trade name: Pro-Strength Liquid-Plumr Urgent Clear Clog Remover
Additional identification: Not available
Identification of the product: See section 3
Index Number: Not available
REACH registration No.: Not available

Relevant identified uses of the substance and uses advised against:

Identified uses:
Use in drains Drain Opener.

Uses advised against:
Not available.

Details of the supplier of the safety data sheet:
Supplier(Manufacturer): The Clorox Company
Address: 1221 Broadway Oakland, CA 94612 USA
Contact person(E-mail): -
Telephone: -
Fax: -

Emergency telephone Number:
For Medical Emergencies call: 1-800-446-1014
Transportation Emergencies, call Chemtrec: 1-800-424-9300
Available outside office hours? YES X NO

Section 2 Hazards Identification

Classification of the substance/mixture:
GHS Classification
- skin corrosion/irritation category 1
- serious eye damage/eye irritation category 1
- substances and mixtures corrosive to metals category 1
- hazardous to the aquatic environment – ACUTE category 1
- hazardous to the aquatic environment -CHRONIC category 1

label elements:
Hazard Pictograms:

Signal Word(S): Danger
Hazard Statement: Causes severe skin burns and eye damage.
Precautionary statement:

May be corrosive to metals.
Very toxic to aquatic life with long lasting effects.

Keep only in original container.
Do not breathe dust/fume/gas/mist/vapours/spray.
Wash thoroughly after handling.
Wear protective gloves/protective clothing/eye protection/face protection.
Avoid release to the environment.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing.
Rinse skin with water/shower.
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Immediately call a POISON CENTER or doctor/physician.
Wash contaminated clothing before reuse.
Absorb spillage to prevent material damage.
Store locked up.
Store in corrosive resistant/container with a resistant inner liner.
Dispose of contents/container in corroding with local regulation.

Other hazards:
Not available.

Section 3 Composition/information on ingredients

Section 4 First aid measures

Description of first aid measures:
In all cases of doubt, or when symptoms persist, seek medical attention.

In case of inhalation:

Move to fresh air. If not breathing, give artificial respiration. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. Administer oxygen if breathing is difficult and you are trained.

In case of skin contact:

Wash off immediately with soap and plenty of water removing all contaminated clothes and shoes. Get medical attention immediately if symptoms occur.
In case of eyes contact:
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if applicable, and continue flushing. Keep eye wide open while rinsing. Do not rub affected area. Seek immediate medical attention/advice.

In case of ingestion:
Do NOT induce vomiting. Clean mouth with water and afterwards drink plenty of water. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.

Most important symptoms and effects, both acute and delayed:
Causes severe skin burns and eye damage.

Indication of any immediate medical attention and special treatment needed:
If skin irritation or rash occurs, get medical advice/attention.

### Section 5 Fire-Fighting measures

<table>
<thead>
<tr>
<th>Extinguishing media:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Suitable extinguishing media: Use dry chemical, carbon dioxide (CO2), water spray.</td>
</tr>
<tr>
<td>Unsuitable extinguishing media: Use of water spray when fighting fire may be inefficient.</td>
</tr>
</tbody>
</table>

**Special hazards arising from the substance or mixture**
Some are oxidizers and may ignite combustibles (wood, paper, oil, clothing, etc.).

**Special fire fighting methods and special protective actions for fire-fighters:**
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

### Section 6 Accidental release measures

**Personal precautions, protective equipment and emergency procedures:**

- **For non-emergency personnel:** Provide adequate ventilation. Avoid inhalation of vapour or dust. Avoid skin and eye contact. Refer to section 8 of SDS for personal protection details.
- **For emergency responders:** Wear an appropriate NIOSH/MSHA approved respirator if dust is generated.

**Environmental Precautions:** Prevent entry into waterways, sewers, basements or confined areas.

**Methods for Containment and Cleaning up:** Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Pick up and transfer to properly labeled containers.

**Reference to other sections:** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for information on disposal.

**Additional information:** Not applicable.

### Section 7 Handling and storage

**Precautions for safe handling:**

- **Protective measures:** Containers, even those that have been emptied, may contain explosive vapours. Do NOT cut, drill, grind, weld or perform similar operations on or near containers. Electrostatic discharge may be generated during pumping - this may result in fire. Ensure electrical continuity by bonding and grounding (earthing) all equipment.

- **Advice on general occupational hygiene:** Do not eat, drink and smoke in work areas. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas.

**Conditions for safe storage, including any incompatibilities:** Keep containers tightly closed in a dry, cool and well-ventilated place. Store locked up. Keep out of the reach of children. Store away from other materials.

**Specific end use(s):** Not applicable.
Section 8 Exposure Controls/Personal Protection

Control parameters:

**OCCUPATIONAL EXPOSURE LIMITS (OEL)**

</table>

**Exposure controls:**

**Appropriate engineering controls:**

- Use in a well-ventilated area.

**Individual protection measures, such as personal protective equipment:**

- **Eye/face protection:** Face-shield.
- **Hand protection:** Wear protective gloves, Impervious gloves.
- **Body protection:** Wear protective clothing. Long sleeved clothing. Chemical resistant apron.
- **Respiratory protection:** No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.
- **Thermal hazards:** Wear suitable protective clothing to prevent heat.

**Environmental exposure controls:**

- Avoid discharge into the environment.
- According to local regulations, Federal and official regulations.

Section 9 Physical and chemical properties

**Information on basic physical and chemical properties:**

- **Appearance:** Viscous liquid
- **Colour:** Clear pale yellow
- **Odour:** Bleach
- **Odour threshold:** Not available
- **pH:** 13
- **Melting point/range (°C):** Not available
- **Boiling point/range (°C):** Not available
- **Flash point (°C):** Not available
- **Evaporation rate:** Not available
- **Flammability limit - lower (%):** Not available
- **Flammability (solid, gas):** Not available
Section 10 Stability and reactivity

Reactivity: The substance is stable under normal storage and handling conditions.
Chemical stability: Stable at room temperature in closed containers under normal storage and handling conditions.
Possibility of hazardous reactions: No dangerous reactions known.
Conditions to avoid: Incompatible materials.
Hazardous decomposition products: Carbon oxides.

Section 11 Toxicological information

Toxicokinetics, metabolism and distribution:
Non-human toxicological data: Not available
Information on toxicological effects:
Acute toxicity:
Sodium hypochlorite (CAS#7681-52-9)
LD50(Oral, Rat): 8200 mg/kg
LD50(Dermal, Rabbit): >10000 mg/kg
LC50(Inhalation, Rat): Not available
Acute toxicity:
Sodium hydroxide (CAS#1310-73-2)
LD50 (Oral, Rat): Not available
LD50 (Dermal, Rabbit): 1350 mg/kg
LC50 (Inhalation, Rat): Not available

Skin corrosion/Irritation: Causes severe skin burns.
Serious eye damage/irritation: Causes serious eye damage.
Respiratory or skin sensitization: Not classified
Germ cell mutagenicity: Not classified
Carcinogenicity: Not classified
Reproductive toxicity: Not classified
STOT - single exposure: Not classified
STOT - repeated exposure: Not classified

Section 12 Ecological information

**Toxicity:** Sodium hypochlorite (CAS#7681-52-9)

Persistence and degradability: Not available.
Bioaccumulative potential: Not available.
Mobility in soil: Not available.
Results of PBT&vPvB assessment: Not available.
Other adverse effects: Not available.

Section 13 Disposal considerations

Waste treatment methods: The material should be disposed of by incineration in a chemical incinerator in compliance with national and regional requirements.
Product / Packaging disposal: If empty container retains product residues, all label precautions must be observed.

Return for reuse or dispose according to national or local regulations.

Section 14 Transport information
